PROFESSIONAL PROFILE

Junior Cloud & AI Platform Engineer combining a deep technical foundation in Web Application Development (DAW). Backed by 6 years of proven professional experience in cross-functional team leadership and crisis management, bringing a solutions-oriented mindset to critical technical environments. Academic background in English Philology provides advanced C1 communication skills, enabling seamless production of technical documentation and effective collaboration within multicultural teams. Dedicated to mastering automated infrastructure and scalable architectures, specializing in accelerating delivery pipelines and connecting enterprise logic with cloud ecosystems.

CORE TECHNICAL SKILLS

Cloud & Infrastructure: **AWS** (EC2, S3, Core Layers), **GCP**, Infrastructure as Code (**Terraform**), **Linux**

Containers & Orchestration: **Docker**, **Kubernetes**

Automation & CI/CD: **GitHub Actions**, Continuous Integration & Deployment Pipelines, n8n

Languages & Backend: **Python**, Node.js, JavaScript (ES6+), **TypeScript**, SQL (MySQL, PostgreSQL)

Ops & Frameworks: **Anthropic API**, Intelligent Agents, React, Tailwind CSS

PROFESSIONAL EXPERIENCE

Cloud & AI Infrastructure Intern Apr 2026 – Present
Coinscrap Finance (Fintech) Pontevedra, Spain

- Engineered backend components for an enterprise-level **Smart Assistant** ecosystem leveraging Large Language Models (LLMs) and intelligent agent architectures.
- Architected automated data processing scripts and APIs using **Python**, deploying scalable microservices via Docker containers directly within the **Google Cloud Platform (GCP)**.
- Collaborated within cross-functional technical teams following strict **Agile methodologies**, participating in daily standups and cross-project system integrations.

Personal Projects & DAW Academic Development Sept 2024 –
Present Freelance Engineering & DAW Track Spain

- Designed end-to-end cloud-ready web applications focusing on scalable software architecture and Clean Code.
- Built resilient server-side applications utilizing **Node.js** and **TypeScript**, optimizing database schemas across relational and non-relational database structures.

Store Manager & Cross-Functional Team Leader Jan 2023 – Aug
2024 Paralel Store Spain

- Orchestrated full business operations across 2 flagship retail facilities, directly supervising a team of 7 employees.
- Engineered a Black Friday strategy boosting weekend revenue by **66% year-over-year**.
- Optimized workforce planning and handled crisis mitigation under high-pressure scenarios.

Founder & E-commerce Manager

Independent Boutique

2020 – 2023

E-commerce

- Founded a profitable commercial brand, managing operations from logistics to digital touchpoints.
- Deployed an e-commerce platform expanding reach nationally, driving a **35% revenue increase** in its first year.

Section Manager & Inventory Specialist

JD Sports Fashion PLC

2016 – 2018

Retail

- Supervised inventory lifecycles and product placement parameters for the main apparel department. Boosted inventory turnover efficiency by 20% by designing and executing a predictive restocking system.
- Recipient of "Employee of the Month" honors on 4 separate occasions for unparalleled execution metrics.

SELECTED TECHNICAL PROJECTS

CV AI Optimizer

Autonomous ATS-Optimization Engine

[GitHub](#)

[Python](#) [Docker](#) [LLM Agents](#)

- Engineered an intelligent parsing pipeline ingesting raw resumes and target job description URLs, using automated LLM agents to map engineering skill alignments.
- Containerized the solution using **Docker** to guarantee environment independence and orchestration suitability.

EvaOS

Advanced Healthcare Resource Optimization Platform

[GitHub](#)

[React](#) [TypeScript](#) [PostgreSQL](#)

- Architected a fully automated PWA built specifically to solve scheduling chaos and contract regulations for medical personnel.

EDUCATION & CERTIFICATIONS

Higher Degree in Web Application Development (DAW)

2026 Ilerna (State-Certified Higher Technical Degree)

Graduation: July

Spain

Professional IT Certifications

- **Anthropic:** Claude Code in Action (March 2026)
- **Anthropic:** Claude with the Anthropic API (March 2026)
- **Anthropic:** Introduction to MCP (June 2026)
- **IBM:** Docker Essentials (May 2026)
- **n8n:** Completed n8n Course Level 1 (Workflow Automation)
- **AWS:** Certified Solutions Architect – Associate (SAA) (*In Progress*)

LANGUAGES & ADDITIONAL INFORMATION

English	C1 Level (Fluent) – Background in English Philology (USC). Technical communication.
French	B2 Level (Advanced) – Actively prepared for full integration within the Swiss workspace.
Spanish / Galician	Native – High structural affinity with Portuguese for fluent operational communication.
